OCT 24 2016

CERTIFIED MAIL: RETURN RECEIPT REQUESTED, #9590 9401 0007 5205 8868 19
GENERAL NOTICE LETTER
URGENT LEGAL MATTER - PROMPT REPLY NECESSARY

Koppers Company, Inc.
c/o Beazer East, Inc.
Paul S. Kline, Esq.
Environmental Counsel
Three Rivers Management, Inc., agent for Beazer East Inc.
1910 Cochran Rd.
Manor Oak One, Suite 200
Pittsburgh, Pennsylvania 15220

**Re: SBA Shipyard Superfund Site, Jennings, Jefferson Davis Parish, Louisiana;
CERCLIS #: LAD008434185; General Notice Letter**

Dear Mr. Kline:

The purpose of this letter is to provide Beazer East, Inc., formerly known as Koppers Company, Inc. (hereinafter is referred to as "you" or "your"), with written notice of your potential liability at the SBA Shipyard Superfund Site ("Site") located in Jennings, Jefferson Davis Parish, Louisiana. Information available to the U.S. Environmental Protection Agency ("EPA" or the "Agency") indicates that you may be responsible for the cleanup or costs of cleanup of the contamination found at the Site under the Comprehensive Environmental Response, Liability, and Compensation Act ("CERCLA").

Under CERCLA, the EPA is responsible for responding to the release or threat of release of hazardous substances, pollutants or contaminants into the environment – that is, for stopping further contamination from occurring and for cleaning up or otherwise addressing any contamination that has already occurred. The EPA has documented that such a release or threat or release has occurred at the SBA Shipyard Superfund Site. The EPA has spent public funds to investigate and control releases of hazardous substances or potential releases of hazardous substances at the Site.

Explanation of Potential Liability

Under Sections 106(a) and 107(a) of CERCLA, 42 U.S.C. §§ 9606(a) and 9607(a), potentially responsible parties ("PRPs") may be required to perform cleanup actions to protect the public health and welfare or the environment. PRPs may also be responsible for costs incurred by the EPA in cleaning up the Site. PRPs include current and former owners and operators of the Site, as well as persons who sent or transported hazardous substances to the Site for disposal or treatment or who arranged for the disposal or treatment of hazardous substances at the Site.

Based on the information collected, the EPA believes that you may be liable under Section 107(a) of CERCLA, with respect to the SBA Shipyard Superfund Site, as an arranger, who by contract or agreement, arranged for the disposal, treatment, or transportation of hazardous substances at the Site.

Site History

The Site is situated on approximately 98 acres of land located in a rural-industrial area at 9040 Castex Landing Road, Jennings, Jefferson Davis Parish, Louisiana 70546. The Site is within Section 19 of Range 2W, Township 105 and is located at the end of Louisiana Highway 3166) which is on the west bank of the Mermentau River. The Site is approximately four miles southeast of downtown Jennings and two miles southwest of the village of Mermentau. The Site is bordered to the north by residents, south and west by wetlands, and east by the Mermentau River and wetlands.

The Site primarily consists of two separately-owned parcels of property, one southern and one northern. The southern and northern properties are generally divided by a property line that runs just north of the large barge slip. Suzanne Smailhall Cornelius, (heir of Louis Smailhall, principal of SBA Shipyards, Inc.) and SBA Shipyards, Inc. (now inactive) own the southern property, which historically was operated as a barge cleaning operation. Bunge Street Properties, LLC, f/k/a Leevac Shipyards, Inc., owns the northern property, which historically was operated as a vessel construction and repair operation.

SBA Shipyards, Inc. ("SBA") began operations at the Site on about 1965. Initially, it performed vessel construction and repair operations on what is now the northern parcel. In the 1970s, SBA constructed the graving dock on the northern parcel and dredged the barge slip and constructed the barge cleaning facility on what is now the southern parcel. Leevac Shipyards, Inc. ("Leevac") entered into a lease with option to purchase for the northern vessel construction and repair facility with SBA in 1993. Leevac operated vessel construction and repair operations on the northern parcel beginning in 1993. Leevac then exercised its option to purchase in 1998 and acquired the northern parcel at that time and continued its operations. SBA continued to operate its barge cleaning operations on the southern parcel up until approximately 2006, when Mr. Smailhall died.

Vessel construction and repair utilized two launch slips with on-land rails to haul and launch vessels and eventually a graving dock with a moving gate where a vessel could enter and the dock de-watered to allow construction and repairs on dry land. Both SBA and Leevac activities included sandblasting, cutting and painting, as well as fabricating and repairing vessels. Barge cleaning operations were conducted by SBA only on the southern parcel. SBA converted a small barge placed on land adjacent to the barge slip into its "boiler barge," which it used to generate steam for use in cleaning barges and it also served as the barge cleaning control room.

SBA cleaned barges and other vessels that had contained as last cargos a variety of materials, including, but not limited to: acrylates, asphalt, carbon tetrachloride, coal tar, coke oven tar, carbon black, carbon oil, , caustic soda, creosote, cumene, black oil and black oil slop, bunker crude, diesel fuel, heavy grease, waste water, ethyl acrylates, kerosene, lube oil, methanol, number 6 oil , rust, scale, styrene, sour gas oil, soy bean oil, sulphuric acid, tallow, and vinyl acetate.

SBA used a large partially buried barge, as well as above-grade tanks constructed from cut-up barges, to store liquids, sludges, solids and other materials during the barge cleaning process. SBA also constructed and used an unlined surface impoundment called the Oil Pit to store liquids, sludges, solids and other materials. Aside from the Oil Pit, SBA used three other unlined surface impoundments, called Water Pits 1, 2 and 3, to receive wastewater, sludges and solids from the barge cleaning process.

In December 10, 2002, EPA entered into an Order and Agreement for Interim Measures/Removal Action (IM/RA) of Hazardous/Principal Threat Wastes at SBA Shipyards, Inc., Docket No. RCRA-6-2002-0908, pursuant to RCRA Section 3008(h) ("2002 Order/Agreement") with SBA and SSIC Remediation, LLC ("SSIC"), an entity formed by certain former customers of SBA's barge cleaning operations to conduct this work. Interim removal activities were conducted from March 2001 through January 2005 under the 2002 Order/Agreement. Interim removal activities consisted of the removing, solidifying, and recycling and/or disposing off-site the waste in the Oil Pit and Water Pit 2 and then over-excavation of the Oil Pit and Water Pit 2; removal and scrapping of above ground storage tanks; draining and refilling of Water Pit 3; removing all pumpable materials from the partially buried barge and disposing those materials off-site, then welding shut all hatches to that barge; and surface scrapping of all visible materials from a former land treatment unit (FLTU). By letter dated February 24, 2006, EPA Region 6's RCRA branch reviewed and approved the completion report of the IM/RA activities and concluded that the completion report fulfilled the 2002 Order/Agreement. The IM/RA, however, was intended as an interim response; hazardous substance remained onsite after the IM/RA.

In October 2012, the U.S. Coast Guard and the LDEQ responded to a reported release at the barge cleaning portion of the Site from an attempt to scrap the "boiler barge" and the partially buried storage barge by parties contracted by the owner of the southern portion of the Site. During 2014 to 2015, EPA conducted a CERCLA emergency removal action and an Oil Pollution Act of 1990 removal action after LDEQ reported barge scrapping activities and releases of visible liquids at the Site.

Between December 2012 and September 2014, EPA conducted a preliminary assessment, site inspection, and expanded site inspection. As part of EPA activities, the Agency conducted sampling activities at the Site. During those site activities, EPA sampling documented releases or threats of releases of hazardous substances in the subsurface and groundwater of the Site, the Mermentau River, and wetlands surrounding the Site. Numerous hazardous substances were identified at the Site including petroleum hydrocarbons, numerous polycyclic aromatic hydrocarbons, dioxins/furans, metals, and volatile organic compounds. Petroleum and non-petroleum substances found at portions of the Site are or were comingled.

Information to Assist You

The EPA would like to encourage communication between you, other PRPs, and EPA at the Site. The EPA is in the process of negotiating a remedial investigation/feasibility study administrative settlement and order on consent ("ASAOC") for the Site with some of the potentially responsible parties. If you would

like to discuss the opportunity to join this ongoing settlement, please contact counsel representing the group of potentially responsible parties below within **30 days** of receipt of this Notice Letter:

Michael A. Chernenkoff
Partner
Jones Walker LLP
1001 Fannin St., Ste. 2450
Houston, Texas 77002
(713) 437-1827
mchenekoff@joneswalker.com

We encourage you to give this matter your immediate attention and request. The EPA plans to finalize the ASAO after the 30-day response period for this General Notice. If you choose not to join the ongoing settlement discussions or pursue other options to satisfy your potential liability with the EPA, the EPA will evaluate enforcement options, including issuing special notice letters to all potentially liable parties known to the EPA at that time.

Also included in this letter to assist you are: the evidentiary documents as Enclosure A; the Small Business Resource Fact Sheet as Enclosure B; and the parties receiving this letter as Enclosure C.

Financial Concerns/ Ability-to-Pay Settlements

The EPA is aware that the financial ability of some PRPs to contribute toward the payment of response costs at a site may be substantially limited. In accordance with Section 122(g)(7) of CERCLA, 42 U.S.C. § 9622(g)(7), the EPA will review financial information that you submit in order to determine whether you have an inability or a limited ability to pay response costs incurred at the Site. As part of this review, the EPA will take into consideration your overall financial condition and demonstrable constraints on your ability to raise revenue. Based upon the financial information that you may submit, EPA will determine whether it can qualify for a reduction in the settlement amount and/or an alternative payment method within the meaning of Section 122(g)(7) of CERCLA, 42 U.S.C. § 9622(g)(7).

If you believe that you qualify for a reduction in any settlement amount and/or alternative payment amount under the criteria described in the paragraphs above, please contact Mr. Talton, at 214-665-7475 for information on "Ability to Pay Settlements." In response, you will receive a package of information about the potential for such settlements and an information request for your relevant financial information, and you will be asked to submit financial records including business federal income tax returns. If the EPA concludes that you have a legitimate inability to pay the full amount of the response costs, the EPA may offer a schedule for payment over time or a reduction in the total amount demanded from you.

Also, please note that because the EPA has a potential claim against you, if your financial status changes in any significant way, e.g., filing for bankruptcy, you must include the EPA as a creditor. The EPA reserves the right to file a proof of claim or an application for reimbursement of administrative expenses.

Resources and Information for Small Businesses

As you may be aware, on January 11, 2002, President Bush signed into law the Superfund Small Business Liability Relief and Brownfields Revitalization Act. This Act contains several exemptions and defenses to CERCLA liability, which we suggest that all parties evaluate. You may download a copy of the law at <http://www.gpo.gov/fdsys/pkg/PLAW-107publ118/pdf/PLAW-107publ118.pdf> and review the EPA guidances regarding these exemptions at <http://cfpub.epa.gov/compliance/resources/policies/cleanup/superfund/>.

The EPA has created a number of helpful resources for small businesses. The EPA has established the National Compliance Assistance Clearinghouse as well as Compliance Assistance Centers which offer various forms of resources to small businesses. You may inquire about these resources at <http://www.epa.gov/compliance/compliance-assistance-centers>. In addition, the EPA Small Business Ombudsman may be contacted at <http://www.epa.gov/resources-small-businesses/forms/contact-us-about-resources-small-businesses>. Finally, the EPA has developed a fact sheet about the Small Business Regulatory Enforcement Fairness Act (SBREFA) and information on resources for small businesses, which is enclosed with this letter as Enclosure B and available on the Agency's website at <http://www.epa.gov/compliance/small-business-resources-information-sheet>.

Thank you in advance for your cooperation. We look forward to working closely with you in the future. If you have any questions regarding the notice or any of the documentation included, please contact Mr. Kenneth Talton at 214-665-7475 or talton.chuck@epa.gov. Questions concerning legal matters should be directed to the EPA site attorney, Ms. I-Jung Chiang, at 214-665-2160 or chiang.i-jung@epa.gov. Thank you for your attention to this matter.

Sincerely yours,

Ben Banipal, P.E., Branch Chief
Technical and Enforcement Branch
Superfund Division

In the event of any physical or atmospheric changes adversely affecting the STANDARD SAFETY DESIGNATIONS assigned to any of the above spaces, or if in any doubt, immediately stop all work and contact the undersigned Marine Chemist.

QUALIFICATIONS: Transfer of ballast or manipulation of valves or closure equipment tending to alter conditions in pipe lines, tanks or compartments subject to gas accumulation, unless specifically approved in this Certificate, requires inspection and endorsement or reissue of Certificate for the spaces so affected. All lines, vents, heating coils, valves, and similarly enclosed appurtenances shall be considered "not safe" unless otherwise specifically designated.

STANDARD SAFETY DESIGNATIONS (partial list, paraphrased from NFPA 306 Subsections 1-6.1 through 1-6.4, and Subsection 5-3.2).

SAFE FOR WORKERS: Means that in the compartment or space so designated: (a) the oxygen content of the atmosphere is at least 19.5 percent by volume; and that, (b) toxic materials in the atmosphere are within permissible concentrations; and that, (c) the residues are not capable of producing toxic materials under existing atmospheric conditions while maintained as directed on the Marine Chemist's Certificate.

NOT SAFE FOR WORKERS: Means that in the compartment or space so designated, the requirements of Safe for Workers have not been met.

SAFE FOR HOT WORK: Means that in the compartment so designated: (a) oxygen content of the atmosphere is at least 19.5 percent by volume, with the exception of inerted spaces or where external hot work is to be performed; and that, (b) the concentration of flammable materials in the atmosphere is below 10 percent of the lower flammable limit; and that, (c) the residues are not capable of producing a higher concentration than permitted by (b) above under existing atmospheric conditions in the presence of fire, and while maintained as directed on the Marine Chemist's Certificate; and further, that, (d) all adjacent spaces containing or having contained flammable or combustible materials have been cleaned sufficiently to prevent the spread of fire, or are satisfactorily inerted, or, in the case of fuel tanks or lube oil tanks, or engine room or fire room bilges, have been treated in accordance with the Marine Chemist's requirements.

NOT SAFE FOR HOT WORK: Means that in the compartment so designated, the requirements of Safe for Hot Work have not been met.

SAFE FOR REPAIR YARD ENTRY: Means that the compartments and spaces of the flammable cryogenic liquid carrier so designated: (a) have been tested by sampling at remote sampling stations, and results indicate the atmosphere tested to be above 19.5 percent oxygen, and less than 10 percent of the lower flammable limit, or (b) are inerted.

CHEMIST'S ENDORSEMENT. This is to certify that I have personally determined that all spaces in the foregoing list are in accordance with NFPA 308 Control of Gas Hazards on Vessels and have found the condition of each to be in accordance with its assigned designation.

undersigned acknowledges receipt of this Certificate under Section 2-3 of NFPA 306 and its conditions and limitations under which it was issued.

This Certificate is based on conditions existing at the time the inspection herein set forth was completed and is issued subject to compliance with all qualifications and instructions.

Small Entity Compliance Guides

<http://www.epa.gov/sbrefa/compliance-guides.html>

EPA publishes a Small Entity Compliance Guide (SECG) for every rule for which the Agency has prepared a final regulatory flexibility analysis, in accordance with Section 604 of the Regulatory Flexibility Act (RFA).

Regional Small Business Liaisons

<http://www.epa.gov/sbo/rsbl.htm>

The U.S. Environmental Protection Agency (EPA) Regional Small Business Liaison (RSBL) is the primary regional contact and often the expert on small business assistance, advocacy, and outreach. The RSBL is the regional voice for the EPA Asbestos and Small Business Ombudsman (ASBO).

State Resource Locators

www.envcap.org/statetools

The Locators provide state-specific contacts, regulations and resources covering the major environmental laws.

State Small Business Environmental Assistance Programs (SBEAPs)

www.epa.gov/sbo/507program.htm

State SBEAPs help small businesses and assistance providers understand environmental requirements and sustainable business practices through workshops, trainings and site visits.

EPA's Tribal Portal

www.epa.gov/tribalportal/

The Portal provides access to information on environmental issues, laws, and resources related to federally recognized tribes.

EPA Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated, businesses may be eligible for penalty waivers or reductions. EPA has two such policies that may apply to small businesses:

EPA's Small Business Compliance Policy

www2.epa.gov/enforcement/small-businesses-and-enforcement

This Policy offers small businesses special incentives to come into compliance voluntarily.

EPA's Audit Policy

www2.epa.gov/compliance/epas-audit-policy

The Policy provides incentives to all businesses that voluntarily discover, promptly disclose and expeditiously correct their noncompliance.

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established a SBREFA Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the Small Business Administration's definition of a small business (based on your North American Industry Classification System designation, number of employees or annual receipts, as defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

Your Duty to Comply

If you receive compliance assistance or submit a comment to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.
